Hazardous declaration form pdf

Continue

To ship dangerous goods, consignors are required to prepare a form certifying that the cargo has been packed, labeled and declared according with the IATA Dangerous Goods Regulations (DGR). The attached sample Shipper's Declarations form reflect those that have been adopted into the 60th edition of the DGR. Forms of the design as shown in the 59th edition may continue to be used until 31 December 2024. Download the Dangerous Goods Declaration: Please note that the fillable form of the "Shipper's Declaration" requires Adobe Acrobat (c) software in version 6 or 7. When using the free Acrobat Reader version, the file can be saved for printing or future use. Electronic Dangerous Goods Shipper's Declaration (e-DGD) Background The air cargo industry recognized the need for a digital and paperless process to manage the IATA Dangerous Goods Shipper's Declaration (DGD) among various stakeholders in the air cargo supply chain. Changes incorporated in 2009 in the ICAO Technical Instructions enable and support the use of electronic data for DGD, which can be shared using, for example, the IATA Cargo XML standard (XSDG) developed for the industry. e-DGD Concept The e-DGD is an electronic approach to manage the IATA DGD, leveraging industry initiatives to digitalize data and embrace data sharing platform principles. Data is made available on the data sharing platform by the data owner and is accessible to whoever requires it depending on the roles and responsibilities in the supply chain. The data sharing platform principle allows for a close collaboration between all stakeholders, including shippers, forwarders, carriers, ground handling agents and third party providers. In March 2018, the IATA Cargo Services Conference endorsed the principles of data sharing platform for e-DGD with the adoption of a policy item. Benefits Increased data quality More transparency and traceability Reduced number of errors and delays Leaner and faster DG processes Improved customer experience Projects The IATA e-DGD initiative began at the end of 2016 with the establishment of the e-DGD Proof of Concept (PoC) Focus Group including three airlines and one ground handler (Air France – KLM Cargo, Lufthansa Cargo, Swiss WorldCargo and Cargologic), who had recognized the momentum of the industry to move forward. These actors see the need for the paperless process among various stakeholders in the air cargo supply chain, and are contributing to three non-related DG-community driven projects for the electronic Shipper’s Declaration for Dangerous Goods: e-DGD by Cargo Information Network in France (CIN), e-DG App by IGAC Switzerland in ZRH and InFr8-DGD by DaKoSy / Fraport in FRA. To facilitate and support these projects, the role of the IATA e-DGD Focus Group is to: Ensure that the business processes are aligned among the 3 PoC Make sure the XML standard developed (XSDG) is fit for purpose Engage with CAA of the pilot trade lanes to verify the acceptance status of electronic data and paper requirement e-DGD Implementation Guide e-DGD Implementation Guide (pdf) Overview Specifications Regulatory Technical Shipping Item Description Help comply with air shipment regulations with Labelmaster's Shipper's Declaration for Dangerous Goods Form. This is required for all international shipments of dangerous goods/hazardous materials by air. The form includes air certification, an area for the 24-hour emergency response phone number and the declaration statement for air eligibility. Featuring a red and white striped border, it is available in an 8 1/2 x 11-in. single sheet without columns and is sold in packs of 100. Labelmaster's DGIS Express software (Item: DGISEXPSS) may be used to fill out these forms. Width 8.5 " Height 11 " Format Pack Format Unit Of Measure 100 Legend Text Shipper's Declaration For Dangerous Goods UPC Code 887277150030 Manufacturer Number F07L Manufacturer Name The Flesh Company Regulatory Standard 4.1-4.4 Material Polypropylene/Cellulose Country Of Origin US Harmonized Tariff Code 4820400000 Master Carton Units 0 Master Carton Weight 0 Lbs Weight 1.1 lbs UNSPSC Code 55121600 Loading The International Air Transport Association which makes up the majority of the world`s airlines, uses the ICAO Technical Instructions for the Safe Transport of Dangerous Goods by Air as the basis for their dangerous goods regulations (IATA-DGR). Some airlines have specific operational variations. These variations identify unique requirements specific to that particular airline and are always more restrictive than the DGR. FedEx, for example, has very specific documentation requirements and shippers should be aware of these variations. Air Waybill(s) accompanying dangerous goods consignment(s) for which a dangerous goods declaration is required must include the following statements, as applicable, in the Handling Information box: “Dangerous goods as per attached Shipper's Declaration” and possibly “Cargo Aircraft Only” if applicable.
